

Pumps & Pump Systems Since 2005

Chemical-Petrochemical Pumps & Systems

Pumping Applications

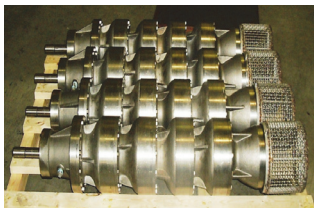

JeffPro Fluid Solutions, through our quality manufacturers, can offer many solutions for **Chemical-Petrochemical Pump Applications**, including: transfer of acids, caustics, solvents, sludge and slurries,

SSP (Alfa Laval) Rotary Lobe P.D. Process Pumps

emulsions, shear sensitive fluids, polymers, inks, paints, soaps and detergents, adhesives, plastics, refrigerants; fire protection (fire water & foam); general water and wastewater; and others.

We represent well known manufacturers Patterson Pump Company and AMT Pumps (Gorman-Rupp), Hydroflo Pumps Fluid Solutions (A TACO Group Company), Crane Pumps & Systems, Grundfos, FPI Pumps Inc.(Ruthman), SSP (Alfa Laval), Verder-US, and others, for general water and wastewater, fire protection, and process fluids pumping.

SS Vertical Turbine Sump Pumps (Hydroflo)

Fixed and Portable pumps are available.

Pump Types

- End Suction Centrifugal
- In-Line Centrifugal
- Split Case Centrifugal
- Multi-Stage Centrifugal
- Self Priming Centrifugal
- ANSI / ISO Centrifugal
- Seal-Less Centrifugal
- Submersible Centrifugal
- Screw Impeller Centrifugal
- Recessed Impeller Centrifugal
- Vertical Turbine
- Axial Flow / Mixed Flow
- cUL / FM Listed Fire Pumps
- P.D. Pumps (Lobe, Disc / Vane / Gear / Diaphragm / Peristaltic)
- Disc Rotor
- Packaged Systems (Modules)

Packaged Pumping Systems (Modules)

JeffPro Fluid Solutions can provide packaged pump systems for dewatering, reclaim-service water, water pressure boosting, sewage, fire-foam systems, and other applications.

Above—Acid Transfer-Mixing-Pumping System (JeffPro)
Left-Turn-Key Fire-Foam Pumping System (Patterson)
