

*Pumps & Pump Systems Since 2005*

## Wastewater Pumps & Systems

### Wastewater Pumping Applications

JeffPro Fluid Solutions, through our quality manufacturers, can offer many solutions for **Industrial & Municipal Wastewater Pumping Applications** such as Raw Sewage, Effluents, Raw Water, Supernatant,

We represent well known manufacturers Patterson, AMT, & National Pump Company (Gorman-Rupp Company), Hydroflo Pumps (TACO Group), Crane Pumps, Grundfos, FPI Pumps, SSP (Alfa Laval) from Verder-US, and others, for general water and wastewater, fire protection, and process fluids pumping.

#### Pump Types

- End Suction Centrifugal
- In-Line Centrifugal
- Split Case Centrifugal
- Multi-Stage Centrifugal
- Self Priming Centrifugal
- ANSI / ISO Centrifugal
- Seal-Less Centrifugal
- Submersible Centrifugal
- Vertical Turbine
- Axial Flow / Mixed Flow
- cUL / FM Listed Fire Pumps
- P.D. Pumps (Lobe / Disc / Vane / Gear / Diaphragm / Peristaltic)
- Disc Rotor
- Packaged Systems (Modules)

#### Self-Priming Lift Station Pumps (Crane)

Mixed Liquor, Primary-Secondary-Thickened-Digester-Activated Sludge, Scum, Slurries, Centrate, Grit, Emulsions, Shear Sensitive Fluids, and Chemicals.

#### Dry Pit Lift Station Pumps (Patterson)

### Specialty Pumping Applications

JeffPro Fluid Solutions can provide specialty pumps and pump systems for sewage lift stations, storm water lift stations, protected water systems, effluent booster systems, plant seal water systems, dewatering & drainage systems, sumps, and others.

Left-Sewage Lift Station Protected Water System (JeffPro)

Right-Arctic Ready Packaged Sewage Lift Stations (JeffPro)
