

Pumps & Pump Systems Since 2005

Wastewater Pumps & Systems

Wastewater Pumping Applications

JeffPro Fluid Solutions, through our quality manufacturers, can offer many solutions for **Industrial & Municipal Wastewater Pumping Applications** such as Raw Sewage, Effluents, Raw Water, Supernatant,

Self-Priming Lift Station Pumps (Crane)

Mixed Liquor, Primary-Secondary-Thickened-Digester-Activated Sludge, Waste Oil / Sand Emulsions, Oil Sludge, Scum, Slurries, Centrate, Grit, Other Emulsions, Shear Sensitive Fluids, and Chemicals.

We represent well known manufacturers Patterson, AMT, & National Pump Company (Gorman-Rupp Companies), Hydroflo Pumps (TACO Group), Crane Pumps, Grundfos, FPI Pumps (Ruthman), SSP (Alfa Laval), Verder-US, and others, for general water and wastewater, fire protection, and process fluids pumping.

Dry Pit Lift Station Pumps (Patterson)

Pump Types

End Suction Centrifugal
In-Line Centrifugal
Split Case Centrifugal
Multi-Stage Centrifugal
Self Priming Centrifugal
ANSI / ISO Centrifugal
Seal-Less Centrifugal
Submersible Centrifugal
Screw Impeller Centrifugal
Recessed Impeller Centrifugal
Vertical Turbine
Axial Flow / Mixed Flow
cUL / FM Listed Fire Pumps
Positive Displacement (Lobe / Disc / Vane / Gear / Diaphragm / Peristaltic)
Disc Rotor
Packaged Systems (Modules)

Specialty Pumping Applications

JeffPro Fluid Solutions can provide specialty pumps and pump systems for sewage lift stations, storm water lift stations, protected water systems, effluent booster systems, plant seal water systems, dewatering & drainage systems, sumps, and others.

Left-Sewage Lift Station Protected Water System (JeffPro)

Right-Arctic Ready Packaged Sewage Lift Stations (JeffPro)
