

Pumps & Pump Systems Since 2005

Mining Pumps & Systems

Pumping Applications

JeffPro Fluid Solutions, through our quality manufacturers, can offer many solutions for **Mining Pump Applications**, including Drainage & Dewatering, Reclaim-Raw-Process Waters, Wastewater, Sludge / Slurries,

SS Mine Reclaim Water Vertical Turbine Pumps

Chemical Transfer, Fire Protection, and Others.

Fixed and Portable equipment is available.

We represent well known manufacturers Patterson Pump Company and AMT Pumps (Gorman-Rupp), Hydroflo Pumps Fluid Solutions (A TACO Group Company), Crane Pumps & Systems, Grundfos, FPI Pumps Inc., SSP (Alfa Laval), Verder-US, and others, for general water and wastewater, fire protection, and process fluids pumping.

Submersible Axial Flow Dewatering Pump (FPI Pumps)

Pump Types

- End Suction Centrifugal
- In-Line Centrifugal
- Split Case Centrifugal
- Multi-Stage Centrifugal
- Self Priming Centrifugal
- ANSI / ISO Centrifugal
- Seal-Less Centrifugal
- Submersible Centrifugal
- Screw Impeller Centrifugal
- Recessed Impeller Centrifugal
- Vertical Turbine
- Axial Flow / Mixed Flow
- cUL / FM Listed Fire Pumps
- P.D. Pumps (Lobe, Disc / Vane / Gear / Diaphragm / Peristaltic)
- Disc Rotor
- Packaged Systems (Modules)

Packaged Pumping Systems (Modules)

JeffPro Fluid Solutions can provide packaged pump systems for dewatering, reclaim-service water, potable water, sewage, fire protection, and other applications.
