

Pumps & Pump Systems Since 2005

Pulp, Paper, and Forest Products Pumps & Systems

Pumping Applications

JeffPro Fluid Solutions, through our quality manufacturers, can offer many solutions for **Pulp, Paper, & Forest Products Pumping Applications** including: chemical dosing, coating feed, coating recovery, sizing, and

SSP (Alfa Laval) Rotary Lobe P.D. Process Pumps

transfer of alum, anti-foaming agents, black liquor, calcium carbonate, CMC, clay slurries, dyes, latex, rosin, starch, tall oil, TiO₂, sludge, and others; water & wastewater; fire protection.

We represent well known manufacturers Patterson Pump Company and AMT Pumps (Gorman-Rupp Companies), Hydroflo Pumps Fluid Solutions (A TACO Group Company), Crane Pumps & Systems, Grundfos, FPI Pumps Inc., SSP (Alfa Laval), Verder-US, and others, for general water and

Seal-Less Non-Metallic Centrifugal Pump (Warrender)

wastewater, fire protection, and process fluids pumping.

Pump Types

- End Suction Centrifugal
- In-Line Centrifugal
- Split Case Centrifugal
- Multi-Stage Centrifugal
- Self Priming Centrifugal
- ANSI / ISO Centrifugal
- Seal-Less Centrifugal
- Submersible Centrifugal
- Screw Impeller Centrifugal
- Recessed Impeller Centrifugal
- Vertical Turbine
- Axial Flow / Mixed Flow
- cUL / FM Listed Fire Pumps
- P.D. Pumps (Lobe, Disc / Vane / Gear / Diaphragm / Peristaltic)
- Disc Rotor
- Packaged Systems (Modules)

Packaged Pumping Systems (Modules)

JeffPro Fluid Solutions can provide packaged pump systems for dewatering, reclaim-service water, water pressure boosting, sewage, fire-foam systems, and other applications.

Right—Fire Protection Pump Module (Patterson)
