PUMPS & PACKAGED PUMP SYSTEMS

*Pumps & Pump Systems Since 2005*

## Vertical Turbine (VT), Axial Flow (AF), & Mixed Flow (MF) Pumps

### Water, Wastewater, & Process Fluid Applications

JeffPro Fluid Solutions, through our quality manufacturers, can offer many solutions for **Water, Wastewater, & Process Fluids Pumping Applications** with vertical

#### U/G Discharge VT Potable Water Booster Pumps (Patterson)

turbine, axial flow, and mixed flow pumps, such as Water Intake & Transfer, Treated Water Transfer & Distribution, Pressure Boosting, Filter Flushing, Recycle & Reclaim Water, Drainage & Dewatering, Storm Water & Flood Control, Effluent / Waste Water, and Process Fluids.

We represent well known manufacturers of turbine, axial flow, and mixed flow pumps such as Patterson and National Pump (Gorman-Rupp Companies), Hydroflo Pumps (TACO Group), FPI Pumps, and Grundfos, for general water duty and fire protection.

We can provide NSF / ANSI certified and compliant pumps, and Zero Lead designs for potable water applications.

#### VT Raw Water Pipeline Pumps (Hydroflo)

Submersible and portable pumps are also available.

#### Pump Types

End Suction Centrifugal  
In-Line Centrifugal  
Split Case Centrifugal  
Multi-Stage Centrifugal  
Self Priming Centrifugal  
ANSI / ISO Centrifugal  
Seal-Less Centrifugal  
Submersible Centrifugal  
Screw Impeller Centrifugal  
Recessed Impeller Centrifugal  
Vertical Turbine  
Axial Flow / Mixed Flow  
cUL / FM Listed Fire Pumps  
P.D. Pumps (Lobe, Disc / Vane / Gear / Diaphragm / Peristaltic)  
Disc Rotor  
Packaged Systems (Modules)

### Specialty Pumping Applications

JeffPro Fluid Solutions can provide specialty pumps and packaged pump systems (Modules), including turn-key packages, for:

Water Intake  
Storm Water & Flood Control  
Fire Protection  
Pressure Boosting  
Dewatering  
Others

#### Can Mounted Submersible Axial Flow Intake Pumps (FPI)
